STANDARD OIL IS NOW REAL OWNER

Makes Purchase of the Manhattan Company, Alleged Part of Trust

THE FINDLAY TRIAL

Attorneys are Finishing Arguments in Anti-Trust Case and Jury Will Retire Today.

Findlay, O., Oct. 17.—Attorney General Ellis, of Ohio, received a dispatch from New York stating that the Manhattan Oil company was today sold to the Standard Oil company for $2,000,000.

When the court took its midday recess Mr. Kline, who is making the principal argument for the defense in the trial of the Standard Oil company of Ohio for alleged conspiracy against trade, had not concluded his address to the jury. He is to be followed by Attorney General Ellis, who is to conclude for the states and who says he will not be able to finish his argument today.

Mr. Kline made a defense of corporation enterprise and justified the development of the Standard Oil company. He dwelt particularly on the decision of the supreme court of 1898 declaring the trust dissolved and said the Standard Oil company of Ohio since November, 1892, had not been a party to the trust agreement, conclusive proof of which, he said, was the decision of the supreme court referred to.

Mr. Kline was listened to throughout his two and a half hours address by an audience which crowded the court room to its full capacity.

MORE WITNESSES TESTIFY.

Investigation of Alleged Grain Trust Is Outlined in Chicago.

Chicago, Oct. 17.—W. H. Bartlett, a prominent member of the board of trade, was the first witness called before the interstate commerce commission today when the hearing regarding the grain trade was resumed.

Mr. Bartlett declared that a recently passed a rule by the board of trade fixing prices to be bid on grain in the country is, in his opinion, in restriction of competition and of trade and not a good business proposition for men dealing in grain as he deals.

"Is the rule good for any one?" asked Commissioner Clark.

"Oh, yes," replied the witness. "It is good for the commission men."

"It is also a good business proposition for a burglar to get away with his booty," said the commissioner with a laugh.

Mr. Bartlett declared that the rule was injurious to the man in the country who buys grain, because the rule fixes a price which the dealers on the board of trade may not overbid.

The rule was then read into the record of the proceedings. It provides that no member of the board of trade shall bid on corn or oats in the country, differently than appears on a call posted each afternoon.

James Bradley, another member of the board of trade, declared that he believed the rule of the board described by Mr. Bartlett was in restraint of trade. H. D. Wetmore, another operator on the board, was in favor of the rule. He said that it permits of the close of business at a proper time in the afternoon and allows any man to buy all the corn or oats he wishes. He said that the adoption of the rule provoked a contest on the board between the elevator and commission men and that the latter had won out.

Graham, who is a member of the association, returned from Indianapolis last evening and brought the news of Fort Wayne's success in securing the meeting. The association is now in session at the capital city and several local agents were in attendance and working to secure the convention for this city, among them being Ed Wilson, Charles Gumpper, Delmer Fitch and W. BIG SHORTAGE IN SUB-TREASURY CASH

EXPERTS MAKING A COUNT IN THE ST. LOUIS VAULTS.

Over $60,000 is Unaccounted for and It is Believed a Mistake May Have Been Made.

St. Louis, Oct. 17.—Three expert accountants from the treasury department at Washington, working under a deputy United States treasurer, counting more than $20,000,000 in the vaults of the United States sub-treasury, have discovered a shortage of $61,200.

John E. Wilkie, chief of the United States secret service, is in the city, but declares that his mission has no connection with the examination. He says he is here merely to attend the bankers' convention.

United States Sub-treasurer John Akins admitted that the experts are in St. Louis, but said that no definite statement would be made by him until the representatives from Washington had finished their investigation.

"A man's reputation," said Mr. Akins, "is worth more to him than the loss of $61,200 is to the government. If an error were made in checking money from the vaults to one of the cages, a recount of all the money on hand would reveal the error, and also the presence of the full amount of the money which should be in the vaults.

"The present investigation will determine whether the accounts balance. Until then nothing can be said and it would be unjust to connect the name of any employe with the discrepancy at this time."

WHY WILKIE IS PRESENT.

Washington, Oct. 17.—The officials of the treasury department have been informed by T. J. Atkins, the assistant treasurer of the United States, at St. Louis, that there is a probable shortage in the accounts of his office of about $61,500, and at his request his accounts are now being checked by the treasury experts. At his request also Chief Wilkie, of the United States secret service, has been sent to St. Louis.

Crack Strong Box of Mill Office and Get Small Sum.

Flora, Ind., Oct. 17.—Five masked men, believed to be professional safe crackers, broke into the office of the Landis, Brower & Co., elevator and grist mill early today, "cracked" the safe and got away with $100 in checks and $50 in cash. E. S. Laranche, foreman of the mill who sleeps in the office, was awakened by the opening of the door. He sprang from his bed and attempted to get his shotgun, which stood in the corner of the office but he was grabbed by three men and warned not to make a move. While some of the men held him, one man took his gun and held it over him. He was then tied to the bed with ropes and a towel was tied over his eyes.

DOES NOT FEAR JUDGE.

Kreuter Says He Will Not Pay His Wife's Allowance.

A citation was issued today in the superior court requiring John Kreuter to appear and show why he should not be punished for failure to pay his wife $12 a month, an allowance fixed by the judge when a limited separation was given her.

She filed through A. E. Thomas an affidavit in which it is alleged that he defaulted on his July and September payments and that when his wife demanded the money he said he would not pay it and would like to see any court make him do it unless he wanted to.

AMBITION OOZED AWAY.

Attica Lad Started for Wild West; Now Back in School.

Attica, Ind., Oct. 17.—Will Layton, a thirteen year old boy of this place, has had dreams of a roseate life in the "wild and wooly west" rudely dispelled. The boy was a reader of the cheapest sort of literature.

His father is dead and his mother is poor and she though many times that her son was at school or at work when in reality he was in the woods or in a neighbor's barn absorbing stories of Indians and desperadoes.

Finally he decided to go to Colorado. He tied up a few belongings in a handkerchief and left home at night. He boarded a Wabash west bound freight. Before he had gone five miles his courage failed. He decided to get off, but the train did not stop until it reached Danville, Ill., twenty miles west. There he tried to get work but failed and broken spirited he applied to the police for aid. They investigated his story and sent him home. Today he is in school.

JUST LOVES HIS WIVES TO DEATH

King Thanh-Than, of Annam Likes 'Em Boiled and Baked and Grilled

HAD ONE FOR DINNER

Stories of Unparalleled Savagery of Annam Monarch Are Received in Marseilles.

Marseilles, France, Oct. 17.—The mail advices which reached here today from Indo-China brought another and more revolting story of the doings of King Thanh-Than, of Annam, showing that he went to the extent of cannibalism. After killing one of his wives, he caused the body to be cooked and served up for dinner, forcing his entourage to eat it under pain of death. Some of the king's wives were bound and killed with burning oil and subjected to other cruelty, while naked women were thrown into the cages of wild beasts, where they were devoured before the eyes of the king. Finally the French authorities stepped in and made a prisoner of Thanh-Than, who has been adjudged insane by Dr. Dumas, of the French colonial staff.

The royal guard has been disbanded, the palace has been placed under the protection of 150 native soldiers and the terror stricken inmates of the palace have been rescued from further sufferings. The majority of the latter were women who bore the marks of revolting tortures. Some of them were terribly mutilated, their faces being slashed and tongues cut out, while others had been suspended by pinchers attached to the fleshy part of their legs to increase their agonies.

HARRIMAN LOSES FIGHT TO CONTROL

Stuyvesant Fish is Again Elected President of Illinois Central

HARRIMAN GAVE UP

Saw Crowd Was Against Him and Sent His Proxies to Fish—Annual Meeting of Stockholders.

Chicago, Oct. 17.—As soon as the meeting of the stockholders of the Illinois Central was called it became evident that there will be no fight for the control of the road, as William Nelson Cromwell, acting for E. H. Harriman, turned over to Stuyvesant Fish, the president of the road, all the proxies for stock held by Mr. Harriman and Mr. Fish was empowered to vote all the Harriman stock in the meeting.

Leaders in the contest for the control of the Illinois Central railroad arrived in Chicago today for the annual meeting of the corporation, which commenced at 12 o'clock. President Fish and his counsel, J. B. Dill, of New York, were in conference last night, which continued until early today. Mr. Dill said two hours before the time of the meeting of the stockholders: "There will be a fight, all right. We expect trouble, but we are ready and prepared to meet anything that may come up."

Denied There Would Be Fight.

Mr. Cromwell, who represented Mr. Harriman in his efforts to secure control of the road, arrived on the Twentieth Century limited train today, and when asked concerning the prospects of the meeting said:

"Why, there will be no fight that I know of. There is nothing to fight about."

"It is generally understood, Mr. Cromwell, that you represent Mr. Harriman in his efforts to secure control of the Illinois Central."

"Ah," said Mr. Cromwell, "well that is entirely a different matter and I must decline to talk about it," and nothing more would he say.

The fight for the control of the road was expected to center around the election of three directors to succeed that number who retire and a fourth to take the place of the late W. Morton Grinnell. The retiring directors are J. T. Harahan, Cornelius Vanderbilt and Charles M. Beach.

All Stockholders Invited.

The Illinois Central for several years has made a practice of inviting the personal attendance of stockholders at the annual meetings, instead of having them send proxies. Every stockholder of the road is provided with transportation enabling him to attend the meeting if he desires.

Previous to the meeting of the stockholders a meeting of directors was held in President Fish's office. They were Governor Deneen, ex-officio member of the board; Stuyvesant Fish, C. M. Beach, J. T. Harahan, Cornelius Vanderbilt and John C. Welling, John W. Auchincloss, Robert W. Goelet. Attorneys J. B. Dill and William Nelson Cromwell, representing respectively Stuyvesant Fish and E. H. Harriman, also attended the meeting.

What was done at the conference those in attendance refused to give out.

Mr. Harriman was not personally present at the meeting. Mr. Cromwell said that Mr. Harriman left New York with him, but had left the train at Fishkill, N. Y., and had returned to New York.

At the meeting of the stockholders 708,613 shares of stock were represented and of these Mr. Fish held, after receiving the Harriman stock, 690,657 shares; 16,066 shares were voted personally by their owners.

President Fish nominated J. W. Cutting, of New York, to serve for two years as the successor of the late William Grinnell. The three retiring directors, Charles M. Beach, J. T. Harahan and Cornelius Vanderbilt were nominated to succeed themselves as directors for a term of four years.

Traveling Salesman Finds Home Broken Up Right.

In a suit for divorce filed by Morton B. Tyger against Frances Tyger in the superior court this afternoon he alleges that when he returned from a trip not long ago he found his furniture had been sold by his wife, their baby left with the neighbors and his wife had gone.

She is also charged with associating with disreputable women, visiting places where intoxicating liquors are sold with other men and spending the money he gave her for household expenses in drinking bouts. She would get him no meals and forced him to board or go hungry. Ronald Dawson filed the suit.

TURN BATTERIES ON ALLEN COUNTY

CONGRESSIONAL BATTLE TO BE FOUGHT OUT HERE

Candidates Will Devote Most of Remaining Time to This County—Other Political Notes.

Allen county is to be the battleground on which the final engagements of the Twelfth district congressional fight this year are to be waged, and both Dr. Morr, the democratic nominee, and Mr. Gilhams, candidate of the republicans, announce that they will devote the greater part of the remainder of the campaign to work in this county. There is in prospect during the next three weeks some very lively campaigning, for out in the district it is admitted that the result in Allen will in all probability determine the question of the Twelfth district's next representative in congress.

Both Mr. Gilhams and Dr. Morr have already stumped Allen county in measure, but the really fast clip is now to be set. Mr. Ulmer, the prohibition nominee, and Mr. Keeley, the socialist candidate, have each been heard but a few times in this county. Dr. Morr said today that with the exception of a day or two in his own county, Noble, immediately before election, he intended putting in practically all the remaining time in Allen. Mr. Gilhams, who has also been at work in the city and county this week, leaves for his home this evening, but declared today his purpose to give most of his effort to Allen county henceforward. Each has made a pretty thorough canvass of other counties in the district, and has deferred the active work in Allen until the last.

This evening a democratic meeting will be held in the Ninth ward at the Racine collar shop, where the speakers will be Mayor Hosey, Judge Hench and Judge Aiken.

Fruechtenicht delivered addresses and Messrs. Wyss, Tonkel and Franke, candidates for county commissioner, were heard in a few remarks. Enthusiasm and interest were markedly notable.

RACE WAR ON IN SOUTHERN CITY

Burning of Seneca, South Carolina, Charged to the Negroes

TOWN IS IN ASHES

Burning of Negro College a Few Days Ago Provokes Reprisals on the Part of the Blacks.

Greenville, S. C., Oct. 17.—As a result of race troubles, Seneca, S. C., is in ashes. The work is claimed to be that of incendiary negroes seeking revenge for the dynamiting of the negro college here last Friday night.

The chief inspirer of the trouble is said to be Rev. J. F. Williams, president of the negro college.

The fire broke out about 1 o'clock this morning and burned rapidly, consuming the entire business section of the town, which has a population of about 2,000. No fire fighting apparatus was available and citizens were powerless to stop the flames. As a last resort dynamite was resorted to.

The superintendent of the Seneca cotton mills, who was an eye-witness, brought the first news to Greenville. He says it is a matter of common belief that the town was fired by negroes. Among the buildings burned are two hotels and a hardware store. The hotel people were all saved. Everything is quiet this morning, although some feeling is still shown by the negroes. No arrests have been made. The loss is estimated at $150,000, with insurance of $50,000.

ASKING RETURN OF CAPTAIN LEONARD

CONCORDIA COLLEGE HAS MADE REQUEST

Believe Officer Can Be Spared from Work in Cuba to Resume Instructions Here.

Hoping that the quieting down of affairs in Cuba will permit the war department to grant its request, Concordia college has already asked that Captain Ivers W. Leonard be relieved of duty in Cuba and be permitted to resume his work as military instructor in the college in this city.

Captain Leonard was ordered to Cuba just as he was getting the work in this city nicely started, and just after the college had expended something like $3,000 for uniforms to equip the cadets and after about $500 had been subscribed for the organization of a college military band.

It is said the college authorities are hopeful of success, and that they will persist in the effort until the military department is able to resume its sessions.

MRS. WEDDEL IMPROVING.

Wound Shows No Dangerous Developments—Husband Held.

The condition of Mrs. Weddel, who was shot yesterday by her husband, was very favorable this afternoon and there are no developments to show that there is anything more than infection to fear. She slept well last night and had a comfortable day but the physicians would not allow her to talk about the circumstances surrounding the shooting.

The husband was arraigned in the city court this morning and held under a bond of $5,000 until October 24, to await the result of his wife's injury. He showed the effects of hard drinking and a sleepless night and was not asked to plead to the affidavit filed against him which charges assault and battery with intent to commit murder.

"The White House, Washington, Oct. 17.—Mrs. J. Addison Hayes, Hotel Majestic, New York City: Pray accept the most sincere sympathy of Mrs. Roosevelt and myself.

DEATH OF MRS. DAVIS.

New York, Oct. 17.—Mrs. Jefferson Davis, widow of the late president of the confederacy, who had been ill for a week at the Hotel Majestic, died at 10:25 o'clock last night.

Death was due to pneumonia, induced by a severe cold which Mrs. Davis contracted on her return from the Adirondacks, where she had spent the summer months.

A decided change for the worse was evident Monday night, and the attending physicians announced that the end was near. It was then believed that Mrs. Davis could not survive the night, but she rallied slightly during the early hours of Tuesday.

Shortly after 7 o'clock Tuesday morning she had a sinking spell. The Rev. Nathan A. Seagle, rector of St. Stephen's Protestant Episcopal church, was summoned. An hour later it was announced that Mrs. Davis had lapsed into unconsciousness, which continued to the end.

Family Surrounds Deathbed.

At the bedside were Mrs. J. Addison Hayes, of Newark, N. J., the only surviving daughter of Mrs. Davis; Jefferson Davis Hayes, a grandson, who is a student at Princeton university; Mrs. Charles E. Bateson, a niece; Dr. and Mrs. Gustave Webb, the latter a granddaughter, and Dr. Robert H. Wylie, who, with Dr. Webb, cared for Mrs. Davis throughout her illness.

J. Addison Hayes had been summoned from Colorado Springs and was hurrying across the continent, when a message announcing Mrs. Davis' death intercepted him.

STORY OF HER LIFE.

Mrs. Jefferson Davis was born in Mississippi, in old Adams county, in 1820, her maiden name being Varina Howell. She became the wife of Jefferson Davis before she completed her eighteenth year. Her father was distinguished for his service in the battle of New Orleans in the war of 1812, and the Howell family was among the most prominent of that section. She was Mr. Davis' second wife, his first wife, a daughter of Gen. Taylor, having died a short time after their marriage.

When the civil war began she went to Richmond and stayed there until peace was declared. When her husband was released from prison she lived with him for the remainder of his life at their old home in Biloxi, Miss. This was turned into a confederate veterans' home in 1899.

Declined Offers of Assistance.

From time to time offers of financial assistance were made to Mrs. Davis after her husband's death from societies through the south. She declined all these and has preferred to remain independent.

Mrs. Davis had a dispute with Gen. Nelson A. Miles last year, when the soldier was reported to have made reference to a letter supposed to have been written by her thanking him for his treatment of her husband while in prison. She declared she never had written such a letter, and that the treatment given her husband had been anything but kind.

TRIBUTE TO MRS. DAVIS.

Adjutant of Confederate War Veterans Issues an Order.

Mobile, Ala., Oct. 17.—William E. Mickle, adjutant general and chief of staff of the United Confederate veterans, has issued a general order announcing the death of Mrs. Jefferson Davis. The order in part says:

"With a heart full of grief, the general commanding announces to his beloved comrades the death of Mrs. Varina Jefferson Davis, which occurred in the city of New York Tuesday night, she being at the time of her death over 80 years of age. Thus passes away another of our distinguished confederates; and the bonds which connected the people of the south with the household of our first and only president, have been wholly severed with the exception of one link yet remaining."

REVISE VIEWS OF TURBINE ENGINES

NAVY DEPARTMENT WILL MAKE FURTHER STUDY

Former Condemnation of Type of Engine for Warships May Soon be Wholly Swept Aside.

Washington, Oct. 17. — Secretary Bonaparte has received and turned over to the construction board a lot of data pertaining to the new British armored cruisers of the Indomitable class, directing special attention to the turbine machinery and upon the report of the constructors he will probably base his own recommendations to congress at the approaching session relative to new naval construction.

The construction board rejected the turbine machinery when last offered for two reasons: First, because confidential reports had shown that the turbine as a propelling engine was far behind the reciprocating engine in maneuvering powers, one of the first qualifications in a battleship. In the second place, the ship builders demanded $700,000 more for supplying turbine engines than for reciprocating engines and the navy department feared that congress at the last session might not sanction any such expenditures.

But recently reports have reached the department touching the performance of the great British battlship Dreadnought that have inclined the construction board to reverse their judgment in the case of turbines, and it is stated at the department to be entirely probable that such engines will be proposed in the plans for the great 20,000 ton battleships, which will be submitted to congress by its direction at the next session. Details of the construction of the Dreadnought, guarded as a state secret for two years, are coming to light and they show that the objection against the turbine on the point of maneuvering capacity has been overcome. This was accomplished by equipping the big ship with four separate propeller shafts and with two great rudders, one behind the other, giving great power of steering. Intimations have been received from American shipbuilders that with the experience gained in the recent construction of merchant ships and yachts equipped with turbines the cost of those engines can be considerably reduced.

FIRE RISK MEN MEET.

Convention of National Association of Local Agents.

Indianapolis, Oct. 17.—The eleventh annual convention of the national association of local fire insurance agents opened today in the auditorium of the Claypool hotel with 300 delegates from the various states and a gallery equal to the number of delegates.

E. J. Tapping, of Milwaukee, is president; Henry H. Putnam, of Boston, is secretary; W. H. Mandeville, of Olean, N. Y., is treasurer, and E. B. Case, of Chicago, is chairman of the executive committee.

In connection with this convention the casualty and surety agents will meet in national convention in the palm room of the hotel Friday. H. M. Coudrey, of St. Louis, is president of the organization.

The second annual convention of the Western Association of Electrical Inspectors will meet tomorrow.

President Tapping called the convention of fire insurance agents to order and introduced J. R. Welch, president of the Indianapolis agents who welcomed the visitors. Mayor Bookwalter and E. H. Forry, retiring president of the Indiana agents, also spoke. Brief reports were made by President Tapping, Secretary Putnam and E. B. Case, chairman of the executive committee, after which the convention was addressed by Albert J. Beveridge, United States senator from Indiana, who spoke on the subject, "The Relation of Congress to Fire Insurance."

In his address Senator Beveridge strongly advocated federal regulation of all insurance, including fire, life and marine, urging that the needs of all the people are paramount. He predicted that the supreme court of the United States would within five years reverse its decision made in the case of Paul versus Virginia in which it was held that insurance is not a matter of interstate commerce and therefore can be made subject to state regulation only. The address of Senator Beveridge was enthusiastically received.

PRETTY BRIDE OF YOUNG FAIRBANKS

MRS FREDERICK C FAIRBANKS (NEE SCOTT)

Pittsburg, Pa., Oct. 17.—Frederick C. Fairbanks and his pretty bride, until Wednesday Helen E. Scott, have returned from Indianapolis to Pittsburg. The son of the vice president is not communicative, nor will any members of the Scott family talk. It was learned from a close friend of the family that the young couple went on Thursday morning to Indianapolis to receive the forgiveness and felicitations of the vice president of the United States. They were received corteously and the bride was ceremoniously kissed and welcomed into the family.

But it is said the young couple felt there was something lacking in the reception. The young Mrs. Fairbanks is accustomed to being called "Nellie" by the members of her family, and when she accepted young Fairbanks she adopted his family. The Fairbanks family, or, rather, perhaps, the head of it, did not recognize the adoption, and "Nellie" did not trip easily from his tongue. Nellie believed that "all the world loves a lover, but felt hurt. As a result the young couple pleaded the necessity of coming at once to Pittsburg to see and explain to the bride's family, and they did.

James Scott, the wealthy father of the bride, did not wish his daughter to marry until she was at least twenty-one, three years from now, but he is too fond of his pretty daughter not to forgive her heartily and to accept in all friendliness the son or the man who was once a telegraph operator in this city.

If Nellie did marry prematurely and spoil the plans for a magnificent wedding, he proposes the event shall be celebrated by a suitable function. While the plans have been kept under cover, arrangements are being made for a reception, dinner and dance that in its magnificence will overshadow anything attempted in this city before. Invitations will be sent to the vice president, who is expected to attend, and to President Roosevelt. After this function the couple will leave for a six months' trip in Europe and Egypt.

TRY THE SENTINEL WANT COLUMN.

LITTLE HOPE OF SAVING SAILORS

FRENCH SUBMARINE BOAT STILL AT BOTTOM OF THE SEA

Every Effort is Being Made With Much Dispatch to Try to Bring Boat Up from Bottom.

Paris, Oct. 17.—A feeling of the deepest pessimism prevails at the ministry of marine here on account of the disaster to the French submarine boat Lutin, which left Bizerta, Tunis, yesterday morning for plunging experiments, having on board a crew of fourteen men, commanded by Lieutenant Phoephon and which was reported last night to have disappeared. The principal hope of floating the Lutin in time to save the lives of the imprisoned men seems to rest in the assistance of the Danish salvage steamer Berger Wilhelm, which happened to be off Cape Farina. That vessel was immediately summoned to aid in raising the Lutin. The Danish vessel possesses machinery capable of lifting 100 tons but the submarine boat lies in thirty fathoms of water and it is pointed out that the submarine boat Farfadet, which sank last summer in the same vicinity but in only ten fathoms of water, was nine days at the bottom and when she was refloated all her crew was dead.

Plans for Relief Are Prompt.

Marine Minister Thomson has acted with the greatest promptness. After consultation with several naval officers he conceived the plan of trying to get heavy chains from the forts at Bizerta under the hull of the Lutin and thus lifting her from the bottom. But it is feared that the tugs and other vessels on the spot may not be equal to the task and the marine minister therefore has ordered two powerful salvage vessels, the Polypheme and the Dromadaire, to start immediately from Toulon to the scene of the disaster and assist the salvagers already on the spot.

Although no news has been received from Valette, it is assumed that the British admiralty officials and the governor of Malta have responded to the appeal for assistance sent from Bizerta yesterday at the instance of the British consul general at that port, who suggested that the French resident general, telegraph to Malta for salvage assistance.

At the ministry of marine, it was ascertained today, that the Lutin was equipped with safety weights beneath her hull, which were automatically detachable and calculated to permit her to raise to the surface in case of danger. Only a leak or an accident to her machinery, it is added, could have prevented the appliance from working.

WILL ATTEMPT TO RAISE BOAT.

Bizerta, Tunis, Oct. 17.—Preparation for an attempt to raise the submarine boat Lutin, sunk near this port yesterday with Lieutenant Fepoux and fourteen men on board, were inaugurated at dawn. Admiral Bellue left here at an early hour to verify the spot three miles off the coast, where the Lutin is supposed to have sunk. Although the bottom at that point is sandy, the chances of raising the Lutin to the surface in time to save the lives of the crew are regarded as slim.

The fire department was called to the corner of Masterson avenue and Hanna streets this afternoon about 3 o'clock to extinguish a blaze in a barn on the premises of E. J. Wilkinson, which had started from some unknown cause. The loss was slight.

WORKMAN FALLS 15 STORIES.

Horrified Crowd in Street Watches Whirling Body Descend.

Chicago, Ill., Oct. 17.—Oliver Haekel, 30 years old, a structural iron worker, fell fifteen stories to his death at the New Commercial Bank building, at Clark and Adams streets yesterday. A great crowd watched the whirling body fall to the street. Women fainted at the sight.

Haekel had been employed but one day. He was sitting on an iron beam near the roof while it was being swung into place, and signaling another workman to lower it a trifle. Haekel leaned too far over and lost his balance. With a scream that was heard in all of the building he fell. His body turned in the air several times. At the fifth floor was a piece of granite suspended by cables. His head struck this and his body turned over several times until it struck the wooden plank floor, which protected persons underneath.

Haekel was married and had been in the structural iron business for years.

Rev. Cephas Shelburne, at present pastor of the Central Christian church at Huntington, has declined a call to the pastorate of the West Jefferson street Church of Christ in Fort Wayne, recently made vacant by the resignation of Rev. E. W. Allen, who went to Wichita, Kan.

C., Oct. 17.—According to advices from Japan, directors of the Toyi Fishing company of Wakayama, owners of the schooner Toyi Maru No. 2, which had five men killed and twelve captured when raiding the St. Paul rookery in Bering sea last July, have approached the Japanese government asking that a claim for damages be lodges with the American government. On September 28 two directors visited the Japanese foreign office and presented a claim to Viscount Hayasi to be forwarded to Washington. The foreign minister said action would be deferred until the report from the member of the Washington legation, sent to investigate, had been made. This representative is enroute back from Juneau.

CHINESE WAR JUNK ARRIVES.

Los Angeles, Cal., Oct. 17.—The Chinese war junk Wangho, purchased from the Chinese government a year ago by Los Angeles people for exhibition purposes, entered San Pedro harbor today after a tempestous voyage in which soon after leaving Kagoshima, Japan, the fore and aft masts were carried away. About the same time the captain of the vessel, Hans Borg, died and was buried at sea. The Wangho is the first Chinese war vessel to be brought to an American port.

INTERESTING CONTEST.

Heavy Cost of Unpaid Postage.

One of the most curious contests ever before the public was conducted by many thousands persons under the offer of the Postum Cereal Co., Ltd., of Battle Creek, Mich., for prizes of 31 boxes of gold and 300 greenbacks to those making the most words out of the letters Y-I-O Grape-Nuts.

The contest was started in February, 1906, and it was arranged to have the prizes awarded on April 30, 1906.

When the public announcement appeared many people began to form the words from these letters, sometimes the whole family being occupied evenings, a combination of amusement and education.

After a while the lists began to come in to the Postum office and before long the volume grew until it required wagons to carry the mail. Many of the contestants were thoughtless enough to send their lists with insufficient postage and for a period it cost the company twenty-five to fifty-eight and sixty dollars a day to pay the unpaid postage.

Young ladies, generally those who had graduated from the high school, were employed to examine these lists and count the correct words. Webster's Dictionary was the standard and each list was very carefully corrected except those which fell below 8,000, for it soon became clear that nothing below that could win. Some of the lists required the work of a young lady for a solid week on each individual list. The work was done very carefully and accurately but the company had no idea, at the time the offer was made, that the people would respond so generally and they were compelled to fill every available space in the offices with these young lady examiners, and notwithstanding they worked steadily, it was impossible to complete the examination until Sept. 29, over six months after the prizes should have been awarded.

This delay caused a great many inquiries and naturally created some dissatisfaction. It has been thought best to make this report in practically all of the newspapers in the United States and many of the magazines in order to make clear to the people the conditions of the contest.

Many lists contained enormous numbers of words which, under the rules, had to be eliminated. "Pegger" would count "Peggers" would not. Some lists contained over 50,000 words, the great majority of which were cut out. The larger lists were checked over two and in some cases three times to insure accuracy.

The $100.00 gold prize was won by L. D. Reese, 1227-15th St., Denver, Colo., with 9941 correct words. The highest $10.00 gold prize went to S. K. Fraser, Lincoln, Pa., with 9921 correct words.

A complete list of 331 winners with their home addresses will be sent to any contestant enquiring on a postal card.

Be sure and give name and address clearly.

This contest has cost the Co. many thousand dollars, and probably has not been a profitable advertisement, nevertheless perhaps some who had never before tried Grape-Nuts food have been interested in the contest, and from trial of the food have been shown its wonderful rebuilding powers.

It teaches in a practical manner that scientifically gathered food elements can be selected from the field grains, which nature will use for rebuilding the nerve centers and brain in a way that is unmistakable to users of Grape-Nuts.

CAN SPEND MORMONS' MONEY.

Salt Lake City, Utah, Oct. 17.—Joseph F. Smith, president of the Mormon church, cannot be enjoined from using the funds of the Mormon church in commercial enterprises, nor can he be compelled to render an accounting of the tithing fund in his care as trustee of the church.

A decision to this effect was rendered yesterday by Judge Morse, of the state district court, when he sustained the demurrer filed in behalf of President Smith in the case brought by Don Carlos Musser and Charles A. Smurthwaite, former members of the church.

This is the third decision rendered by Judge Morse on the points involved, two previous petitions filed by these plaintiffs having been denied.

WOMAN POISONS WELL FOR FUN

Baltimore, Md., Oct. 17.—Minnie Bergert, wife of the gardener for E. Stanley Gary, son of a former postmaster general, was arrested yesterday charged with putting Paris green in a well of drinking water on the Gary estate, Clearfields. She confessed, but says she did it "just for fun." Detectives believe she wanted to throw suspicion on the cook, with whom she recently had a quarrel, and get the domestic discharged. The Gary family had a narrow escape from death, as they drank water from the well, which contained enough poison to kill all of them.

SOLDIERS FIGHT PRAIRIE FIRE.

Sturgis, S. D., Oct. 17.—A squadron of soldiers from the Sixth cavalry stationed at Fort Meade has been sent out to assist in fighting a terrific prairie fire which started about a mile from Tilford yesterday and which has burned over a large expanse of country. Many farmhouses and grain stacks are said to have been destroyed and others are threatened. Tilford reports that the fire is gaining headway and is spreading in the direction of Sturgis.

GLACIER ACTIVE; A MENACE.

Seattle, Wash., Oct. 17.—The Windham glacier, in Taku inlet, on the southeastern coast of Alaska is reported to have become suddenly active and has pushed its way through thousands of tons of sand and gravel and now extends to tidewater. For years there has been a moraine covered by a miniature forest in front of the glacier. Masters of vessels returning from Skagway say that the inlet is now full of ice and trees supposed to be from Windham glacier.

Sour Milk Waffles—This recipe is adapted from my great-grandmother's cook book and the waffles are famous for their lightness. Two cups of flour, one teaspoon of soda, one and one-third cups of sour milk, or buttermilk, one tablespoon of melted butter, or drippings, one scant teaspoon salt and three eggs. Mix the flour and salt, dissolve the soda in the sour milk, add to the flour and partly stir together; now add melted butter and one egg, beat up; add another egg, beat again; then add last egg and beat well. Follow directions given in Martha's Management for baking and serving and the result will be all that could be desired. (See Martha's Management. Record-Herald for November 20, 1903.)

Appended are two seasonable quince recipes taken from "1807 Cook Book:"

Quince Bell Pear—Pare and quarter quinces to equal four pounds. Dissolve four pounds of loaf sugar in one quart of water, boil and skim, and have ready by the time the fruit is tender by the following mode: Lay the quinces into a stone jar, with a teacup of water at the bottom, and pack the fruit in layers with a fourth of a cup of sugar strewn between, and set it on the cooler part of the stove or into a rather cool oven, and let soften till the color becomes red (a full day will be needed, and fruit may be allowed to stand in jar over night). Transfer the fruit to a preserving kettle and mash with a potato masher; over this pour the sirup and a quart of pear or pippen juice, then boil slowly about three hours. Put into glass jars and seal. This is delicious in midwinter. The pear or pippen juice is obtained as in making jelly.

Preserved Quinces—Into two quarts of water put eighteen good-sized golden pippens that have been wiped clean, cored and sliced thin. Cover closely and boil quickly till water becomes jelly-like. To every pint of pippin put a pound of the finest sugar, boil and skim till clear. Scald the quinces, halve and core, then put into the fruit sirup and let boil; skim and when the fruit is clear and tender so as to be pierced by a broom splint put into jars, cover with sirup and seal tightly. The quantity of quinces is to be a pound of quinces to a pound of sugar and a pound of pippen jelly.

FARMING IS CHANGING.

That the character of farming is changing rapidly and that it is coming more and more to be an efficient, attractive and profitable calling, is the opinion well presented in an article in the Century Magazine. The value of education in farming is held to be in no wise less than the value of education in other economical pursuits. This writer goes on to say:

"With here and there an exception, in the past we have not given much consecutive thought to the business—nothing like as much as the merchant gives to his business or the doctor to his. It has been so 'easy' a business that untrained men could succeed in it. The change in economic and social conditions is breaking up the tradition. Farming is becoming more difficult and the old methods must go. In the future only the well-informed and efficient-thinking man can succeed—that is, only the educated man.

"The country is to offer other advantages to the educated man than merely to be a good farmer. There are good opportunities for leadership on public questions—probably better opportunity and with less competition than in the great cities. The very fact that city representation is increasing in the legislatures should make the able country representative more of a marked man. The growth of the institute movement, of the grange and other rural organizations gives fresh opportunity to develop leadership of a high order.

"It seems to me that, by the very nature of the progress we are making, the college man must go to the farm. In fact, college men have been going back from the beginning of the agricultural education movement. Statistics show that a very large percentage actually have returned to farming, and this in spite of the fact that cities have been growing with marvelous rapidity, and that the whole system of agricultural colleges and experiment stations has been developing and calling for men. Considering the limitations under which the agricultural colleges have developed, without sympathy, with the indifference and sometimes the opposition of educators—the very men who should have known better—with wholly inadequate funds, it is little less than marvelous what they have accomplished within a generation. It is probable that the proportion of students of the leading agricultural colleges who now engage in agricultural pursuits is greater than students of that of colleges of law, or of other professional colleges who follow their chosen profession. No one now questions the value of education to a lawyer or physician; why question its value to a farmer? The educated man will go back to the farm if he is fitted to be a farmer."

Miss Emma Stirling, the Florida woman who has aroused much interest by her statement that slavery still exists in her state in the turpentine and phosphate camps, called upon the president this afternoon and told him of what she knew about these matters. At the conclusion of her talk the president sent for Attorney General Moody. Miss Stirling charges that the turpentine and phosphate owners drive their men to and from their work and virtually hold them slaves.

The late turn of matters in the Cuban situation may finally have an important bearing on the future of Hon. Newton W. Gilbert, former congressman from this district and now a judge of the court of first instance in the Philippine Islands. When Judge Gilbert accepted the appointment it was understood that he had assurance the position would be a stepping stone to much higher preferments in the island government. Further changes of plans with reference to archipelago are made necessary by the appointment of Judge Magoon to the head of the provisional regime in Cuba, which is almost certain to last six months, perhaps a year. There has been considerable speculation as to who will take his place in the Philippines as vice governor. It was generally understood that when Judge Magoon was appointed vice governor of the Philippines that he would not remain long in that office. Governor General Smith is believed to be anxious to return to the United States and it is understood that Magoon's present appointment does not mean he will not eventually go to the islands. Meanwhile, there appears prospect of enough vacancies in the island government to soon make a place higher up for Judge Gilbert, in the event, of course, that it is the intention of the administration to have some special care for his future.

SIR THOMAS STILL AFTER CUP.

Gives Hint of Purpose at Milwaukee and Praises Girls.

Milwaukee, Wis., Oct. 17.—The words "Welcome Lipton," which last night blazed forth in incandescent lights from the city hall of Milwaukee, told briefly the story of the homage paid to Sir Thomas J. Lipton by Milwaukeeans from the time of his arrival in the forenoon until a late hour last night.

Sir Thomas was taken in hand by a committee headed by Mayor Sherburn M. Becker, who met his special car at Racine. He was given an automobile trip to various points of interest. Sir Thomas made brief remarks at the Chamber of Commerce and Milwaukee Press club in response to felicitous greetings. In each instance he referred to the America's cup.

"I am still filled with a desire to lift the famous trophy," he said, "and hope before my return home that arrangements may be made whereby I will be able to make another effort."

Four hundred Milwaukee Downer college girls presented the visitor with a huge bunch of American beauty roses and he responded by saying he had never before been surrounded by so much loveliness.

A banquet of 300 covers at the Hotel Pfister last night concluded the day's festivities.

AUTOS IN BALLOON RACE.

Motor Cars to Figure in Aero Club's Contest.

Pittsfield, Mass., Oct. 17.—Automobiles will figure in the balloon race to be held here Saturday by the Aero club of America, according to an announcement made public today. Colonel Homer W. Hedge, of New York, president of the club, in a letter to Superintendent Peebles, of the local gas company, which will supply the racing balloons with gas, said that Allan R. Hawley, one of the members of the Aero club, has offered a valuable silver cup for the automobile which will arrive at the landing of any balloon taking part in the ascension within twenty minutes after its descent. The automobiles will start from the grounds of the gas company at the same time as the balloons and cards will be issued to each driver who wishes to compete.

Thousands of people visited the line of the new railroad, both east and west, yesterday.

The manufacture of the Langlois & Jenney electric generators and [illegible] was begun at the Olds foundry this morning at 7 o'clock.

Mr. Henry Schrage and Miss Jennie Henry will be married at St. Mary's church Tuesday morning at 10 o'clock, instead of at the Cathedral, on account of the forty hours' devotion, Rev. Father Rocke officiating.

The furniture factory, recently removed from the vicinity of the City mills, and belonging to the Peter Box and Lumber company, has been established on High street, and is in excellent running order. Under the management of Mr. Pape the establishment is doing a flourishing business.

The fiftieth anniversary exercises at the First Presbyterian church yesterday were grand and impressive. The floral decorations in front of the altar were profuse and very tastefully arranged by Mr. Doswell. On either side of the altar were the inscriptions "1831" and "1881." The discourse of Rev. J. S. Wilson, D. D., LL. D., on "Presbyterianism, General History and Influence," was certainly one of the ablest efforts of the reverend gentleman's life. In the afternoon communion services were held, the congregations of the First, Second and Third Presbyterian churches participating therein. In the evening "An Historical Sketch of the First Presbyterian Church from Its Organization," written by Hon. J. L. Williams, was read by Rev. Meade C. Williams. The paper was exceedingly interesting and showed great care, research and knowledge of the work performed. This evening the reunion banquet will be served at the Academy of Music.

A Letter From a Self-Made Merchant to His Son

Fort Wayne, Oct. 17, 1906.

Dear William:

You must not lose your head and jump over the traces because your daddy wants you to wear ready made clothing in place of the expensive—no better custom kind—that shows poor training. When I was a boy, if "College Brand" clothinghad been sold I would have been the Beau Brummel of Fort Wayne. I never saw anything to equal them. Last Saturday Charlie asked me to go into Lehman's and help him pick out a suit; he bought just the kind of goods you sent me a sample of and the fit was perfect, and what's of more importance, the price was but $20.00 and as I had just mailed a check to your tailor for $35.00 for the same thing I felt cheated. I know you don't want your dear old daddy cheated so I want you to let me send your Overcoat. Charlie tried on a few and I tell you they are swell. You know some manufacturers put cheap stuff in their clothing but they remind me of that Smart Alec out west who mixed saw dust with his chicken fodder, saying "they will never know the difference," only to find later when he hatched out some eggs he had wood peckers for a crop. If I'm going to foot the bills I want to know what I am getting and Lehman and I have been neighbors in business for 20 years, I get my money's worth or my money back with him, that's the way he has built up his business by giving the square deal. I also know that Tom, Dick and Harry don't get goods for less than I do, for his goods are marked in plain figures, and that figure goes or no sale.

Mother and I expect you home for Thanksgiving, we will kill the fatted turkey, but remember there will be several of us at the table, and the white meat will have to be divided. Now be good and don't sulk at your dad's advice, it's good if he does have to crack his own whip to attract attention to what he is saying.

With mother's love, and best wishes for your health I am your

Divorce Dinner at Which Club Was Formed.

MRS. DIESENGER.

MRS. SOPHIA FLORENCE DIESENGER'S DINNER PARTY TO ALIMONY RECIPIENTS

New York, Oct. 17.—One of the divorce dinner given on Saturday night by Mrs. Sophia Florence Diesenger to celebrate the awarding of the decree which separates her permanently from Albert Diesenger, a Wall street broker, has grown the Broken Wedding Bell association. Mrs. Diesenger's guests on Saturday night were so delighted with the dinner and the entertainment that they are determined to have a permanent organization.

Mrs. Diesenger's dinner was unique and it was not ended until early yesterday morning. Nearly all the guests had undergone experiences similar to those of the hostess and many were the sad stories of experiences with "brutes," "monsters," "fiends in human shape," "deceiving wretches" and "heartless beauty."

James P. McQuade, father of the hostess, who himself went through the courts successfully, was a happy guest, but feared he would become ineligible to membership, as he contemplated another experiment in matrimony.

Statisticians at the dinner said afterward that South Dakota and Rhode Island were about evenly represented, while Pittsburg appeared to lead in point of nativity.

DONDERO UNABLE TO PROVE THEFT

CHARLES COLCHIN ACQUITTED IN CIAY COURT

Addressed Offensive Name to Customer in Shop—Other Cases Disposed Of.

Charles Colchin, a barber, employed in a shop on Harrison street, was acquitted of the charge of stealing $45 from Philip Dondero, a fruit dealer, with a place of business on East Berry street. There was no evidence against the accused.

Dondero stated that he went into the shop with the money in a pocketbook in his hip pocket and after he left he missed it. He went back to the shop and accused Colchin of taking it and offered him $15 if he would return the remainder.

Colchin called him a "dirty Dago" and Dondero admitted on the stand that this incited him to file the affidavit more than the loss of the money. The barber has always borne a good reputation.

William McConnell was up for plain drunk, but the evidence indicated that he had some frills on his jag although the court let him go as it was his first offense and he has a family to support. He is a driver for the Home Supply Co. and started out yesterday with a load of coal routed for a customer on Smith street.

McConnell lost his bearings and went to Lakeside, where he drove over the baricade north of the bridge, where St. Joe boulevard has been graded for paving, pulled along with his team until the horses coould go no further and was in that condition when Patrolman Junk got him. He was too drunk to take care of his team and was locked up.

Joseph Howard, a one-legged tramp, who winds up in police court every fall in time to get a warm bunk for the winter, looked out upon the glad sunshine with his one remaining eye and concluded that it was a bit too balmy to go into winter quarters at the county jail and he promised Judge Skelton that if he were allowed to go he would get out of Fort Wayne and not return as long as he lives. He was given the opportunity.

OLD FEUD CAUSES MURDER.

Two Ohio Men Quarrel and One of Them is Killed.

Nelsonville, Ohio, Oct. 17.—Ira Donley, a miner, was shot and killed last night and Mrs. Angeline Boggs severely wounded by John Frazer, in the Sunday Creek company store at Kimberley, two miles south from here. Frazer is under arrest on the charge of murder. Mrs. Boggs was a bystander who was purchasing supplies when the shooting occurred.

Donley and Frazer renewed an old quarrel when they met on the porch of the store and Donley, it is said, dared Frazer to step out. Frazer refused, whereupon, it is said, Donley made a grasp for him and Frazer ran into the store. Donley then struck Frazer, who took refuge behind the counter and opened fire. The third bullet pierced Donley's heart, causing instant death and another wounded Mrs. Boggs slightly in the thigh.

Both men are married and Donley leaves three children. There was a pathetic scene when Donley's twelve year old son, hearing the shooting, ran to the store and found his father gasping his last. Frazer claims to have shot in self-defense.

FIRE FIGHTING PROBLEM.

Frame Building in Canal Zone Always a Menace.

Washington, Oct. 17.—Fighting fire is a serious problem on the canal zone, where the government has thousands of frame buildings but reports just received by the Isthmian canal commission in this city indicate that the volunteer departments organized on the canal strip have been usually successful. In the past seven months there were 24 fires and the total loss was not over $1,000.

Cristobal and Ancon are soon to have paid departments and will be ready to meet emergencies which may arise in the next dry season. Thirteen firemen from the United States have been employed for the Cristobal department. At Ancon there will be four American paid firemen. Both of these departments have first class modern equipment.

BANDITS HOLD UP TRAIN.

Leadville, Colo., Oct. 17.—Two armed men boarded the engine of Denver and Rio Grande passenger train No. 5 at Malta last night and at the point of revolvers compelled the engineer and fireman to uncouple the express and baggage cars. They then forced the engineer to pull the cars several miles up the road.

When the train stopped the bandits went to the express car and covering the messenger with their weapons attempted to blow open the safe. They only succeeded in getting about $50.

The jaunty little novelties for the very small Americans are found at the Patterson store.

CRISIS OF GIRLHOOD

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well.

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

A mother should come to her child's aid at this critical time and remember that Lydia E. Pinkham's Vegetable Compound will prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

Dear Mrs. Pinkham:

"I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three years I had soreness and pain in my side, headaches and was dizzy and nervous, and doctors all failed to help me.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think it saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

SHARPER ROBS TOWN BY RUSE.

German Crook in Uniform of Soldier Does Net Job.

Berlin, Oct. 17.—A unique and daring robbery was committed at Coepenick, a small town seven miles east of Berlin yesterday afternoon. The robber, in the uniform of a captain of the guards, met on a street in Berlin a detachment of twelve men who were returning from target practice. He produced a forged cabinet order authorizing him to take command. The men recognized his authority, and he then ordered them to march to Coepenick. Upon arrival there they proceeded to the town hall, arrested the burgomaster and the treasurer and took possession of the cash, $1,000.

The robber detached several of his men to conduct the prisoners to headquarters in Berlin and ordered the remainder to hold possession of the town hall for half an hour. He then rode off alone in the direction of Berlin with the money.

The burgomaster and the treasurer were greatly mystified at the meaning of ther arrest. Upon their arrival in custody at headquarters in Berlin they learned that the ostensible captain was a fraud and were immediately discharged.

The bogus captain has not been heard from, and the police and military authorities are without any clew whatever as to his identity.

CHILDREN DIE IN LANDSLIDE.

Canton, Ohio, Oct. 17.—Three children, aged 3, 4 and 7 years respectively, were smothered to death in a gravel pit here yesterday afternoon. They were Casper and Sylvia Ertle and Dortho Rice. The children failed to come home at supper time and a searching party was made up and their bodies were found in the pit, where they had been playing. A landslide had caught them.

BANDITS KILLED IN BATTLE.

Guadalahara, Mexico, Oct. 17.—The state gendarmerie and a gang of Mexican cattle thieves fought a battle near Layula in which four bandits were killed, seven arrested and eleven wounded. The battle took place on an open highway where the officials met the rustlers driving a band of 500 stolen cattle.

PEACE PRESENT PROVES POISON.

Kansas City, Oct. 17.—A box of bon-bons said to have been sent by one woman to another as a peace offering is declared by City Chemist Cross to contain enough strychnine to kill three persons. Dr. James O. Eldridge gave the candy to the chemist for examination. He said one of his woman patients had received it from another woman with whom she had quarreled, and who had sought a reconciliation. The recipient of the gift took to the box to Dr. Eldridge.

The Patterson store is giving a fine foot ball with each knee pant suit.

Not Quite Clear.

The Maid—So you are the woman of Mr. Woodbe's choice, are you?

The Widow—Perhaps it would be more appropriate to say that he is the man of my second choice.

The Maid—Ah, I see! But I wonder who the woman of his choice is?—Detroit Tribune.

Society

Society is agog over prenuptial affairs and some little entertaining for visiting guests. Not that the parties are large affairs but that one likes to hear all about them, anyway. Two beautiful luncheons were a part of today's program. Miss Peters invited Miss Hull, Miss Paul, Miss Blair and Miss Fox to be honor guests at her luncheon today at the golf club. Miss Fox declined as she has all invitations to social affairs preceding her marriage to Mr. Niezer, which will take place tomorrow morning at 10 o'clock at the Cathedral.

* * *

A luncheon surpassing in originality of appointment anything of the month was presided over by Mrs. W. K. Noble at 1 o'clock today. Mrs. John Harper, of Philadelphia, formerly Miss Jane Campbell, of this city, was the honor guest and Mrs. Noble confined her invitations to particular friends of Mrs. Harper. The decorative scheme was a bird's nest. At each place was a small low basket made of brown twigs interwoven to resemble a nest. Growing in each nest were tiny imported ferns and on each basket was a bow of wide Richmond red satin ribbon to which was fastened a Richmond rosebud that the guests could remove and wear. In the center of the table stood a lovely large "nest" from which sprang dozens of the same red roses and plumosus fern. The table was laid in exquisite lace doilies. The name cards were beautiful Mexican cards of birds done in real feathers and mounted on watercolor drawings of flowers and twigs. Miss Flick had charge of the decorating. There were twelve at the table.

* * *

Yellow chrysanthemums, white candles under lovely yellow shades and unusual name cards contributed to the beauty of Miss Flora Peters' luncheon at the golf club. A large green basket was filled with yellow chrysanthemums and plumosus and a big bow of white tulle was tied to the handle. At each place were fancy cards, representing a wedding ring and two hearts. An arrow pierced the hearts and held by the arrow were favors of lilies of the valley in their own foliage. The guests were Miss Alma Paul, Miss Clara Hull, Miss Mayme Blair, Miss Esther Paul, Mrs. J. C. Peters, Mrs. Fred Peters and Miss Freda Gleason, Miss Clara Deppen and Miss Gertrude Greening, visiting guests of Miss Blair.

* * *

Charles Niezer will give a dinner party this evening at Anthony Wayne club for the attendants and ushers at the Niezer-Fox wedding tomorrow. Mr. Niezer's guests will be Rob and Oscar Fox, John, George and Maurice Niezer and Frank Kreeff.

* * *

Miss Lulu Trier entertained a company of young ladies last evening for Miss Ella Meyers whose marriage to Will Moehring will take place tomorrow afternoon. In a contest Miss Emily Schulman and Miss Meyers won the prizes. The decorations of the dining room were carried out in the colors of green and red. Other guests were Miss Emma Foellinger, Miss Anna Biddle, Miss Lydia Buechner, Miss Lucile Traub, Miss Mabel Toy, Miss May Teagarden.

* * *

Miss Emma Sauerwein, of 2008 Fox avenue, gave a china shower last evening in honor of Miss Nellie Bloemker, a bride-elect of the month. Music and various games were a part of the entertainment. Miss Anna Lindlag and Miss Sophia Roth won the prizes in a contest, but presented them to Miss Bloemker. The guests were the Misses Elsie Jacobs, Minnie Bill, Pauline Workman, May and Julia Zollinger, Minnie Hilgeman, Mary Pester, Nettie Hilgeman, Tina and Rose Yipert, Bertha Koerner, Bertha Meyers, Elsie Sauerwein and Mrs. Alterkruse, Mrs. C. Price and Mrs Bloemker.

The wedding of Miss Mary Blanche Porter and David D. Crosbie, both residents of Bluffton, will take place at the home of the bride Thursday, October 25. Mr. Crosbie was formerly a resident of Fort Wayne.

Friends in the city of Mr. and Mrs. J. H. Jacobs and Messrs. Henry and Clement Stapleford, will be interested in knowing that the four Fort Wayne travelers met recently in Constantinople and had a visit together.

Visiting girls at the Blair home—Miss Freda Gleason, of Gleasondale, Mass., Miss Clara Deppen, of Shamokin, Pa., and Miss Certrude Greening, of Bay City, Mich., together with Miss Blair and Messrs. Harry Hattersley, Kerr Murray Cressler and Will Dinnen, were guests of Kent Blair at the Majestic last evening.

One of the most enjoyed parties of recent date was the one in which the following young people were guests of Miss Ethel McArdle and Miss Helen Gruber, on Sunday: Misses Muriel Miller, Marie Markey, Babe Conroy, Grace Parsisot, Irene Fox, Irma Gruber, Mamie Miller, and Messrs. Wayne Monahan, Raymond Mungovan, Stephan Burns, Walter Seibert, Paul Lauer, John Shea. The entertainment was a country drive in a bus.

Miss Estella Worman celebrated her fourteenth birthday anniversary by entertaining friends Monday evening. The young people spent a merry evening and were Flossie and Velma Detrich, Marjorie Magill, Helen Yevin, Ida Cothrill, Edna Klachn, Izetta Karber, Anna Lotz, Ellen Smith, Grace Zumbro, Alda Parker and Floyd Worman, Philip Lotz, Andrew Detrick. Miss Rose Morrell and Mrs. Detrick assisted in serving the supper. Marjorie Magill and Ida Cothrill won prizes in games.

A recent masquerade party in honor of Miss Henrietta Boyle was given her at her home. The invited guests were the Misses Della Diedrich, Frances Brase, Mamie Seling, May Gebhart, Emma Exner, Mamie Gebhart, Nevada Kein, Edith Regel, Carrie Stadler, Emma Dornberg, Minnie Wagner, Anna Seegar, Amelia Weisheit, Ethel Bowers, Elsie Mobins, Mrs. Charles Harrison, Will McClure, Gordon Cartwright, Bert Grabner, Frank Whitely, Bert McCormick, Vern Storms, Fred Stein, Clarence Bence, Will Foster, Arthur Brase, Edward Heiney, Myran McDevitt, Andrew Gebhart, Fred Shafernocker, George Wageman, Herman Exner, John Lopshire and L. Aur.

Miss Louise Kaiser entertained the Young Ladies' society of St. Paul's Lutheran church at her home, 526 East Lewis street, last evening. Among the games of the evening were "A Floral Love Story" and a "Telegram," for which prizes were given to the most successful players. Miss Pauline Heine and Miss Anna Uhlig won the prizes. The following members were present: Misses Clara Heine, Ida Benz, A. Brueggeman, C. Remmert, M. Schroeder, M. Brademeyer, P. Heine, E. Pugeler, L. S. Schoedel, E. Hoffman, L. Leidolf, T. Meinzen, M. Franke, E. Lepper, A. Rodenbeck, L. Lepper, A. Bredemeyer, L. Heine, M. Rodenbeck, L. Rodenbeck, L. Bauman, M. Dreyer, L. Kramer, M. Malich, A. Horrman, C. Nahrwold, P. Malich, A. Uhlig, C. Woberruss, W. Walda, B. Franke, N. Kolb, F. Reese, C. Galmeyer, S. Rosebruck, C. Schack, E. Schmidt, E. Koenig and D. Holmann.

If one should really tell how big Thyra Ruhland's eyes were last evening just before her party and during the time it lasted it is possible that some folks wouldn't believe it. It was Miss Thyra's first party in a long time and besides she has attained the dignity of now having two figures to tell her age. Perhaps her next wish will be to have the syllable "teen" tacked on the end of the numeral, but she can never be any prouder and happier than on the day she was ten years old. It was a pretty party with various games, contests and a little supper. Dorothy White and Joe Perrine did the best guessing about the number of beans in a bottle. Helen Magee and Dudley Rush succeeded in remembering more things on a table that they had looked at for a moment, than any of the others. Cecil Bradshaw and Francis Haberly thought of more words spelled with double "o" than any one else. The guests were Persis Bond, Adele Frankel, Mary Evans, Maribel Olds, Geraldine Bulson, Cecil and Fayma Bradshaw, Virginia Olds, Jane Meriwether, Ida Rush, Elizabeth Porter, Margaret Wilding, Emily and Jane Ninde, Agnes and Marjorie Mahurin, Helen Magee, Elsie Paul, Marie Landenberger, Eugene Frank, Dudley and Rush McClure, Eugene Bulson, James Olds, Joe Perrine, James Meriwether, Ralph Rush, William Wallace Evans, Francis Haberly, Freeman Hunter, Dorothy White, Josephine and Geraldine Fleming, Ruth Riker, Margery Fisher, Gladys Glenn; James White, Elmer Weil and Erick Ruhland.

Supper was served at 6 o'clock and proved one of the most interesting features of a pleasant time. MAXIME ELLIOTT AND HER PLAY.

An audience large enough to literally occupy every seat in the Majestic theater was the greeting extended Miss Maxime Elliott and her company last evening. Miss Elliott was seen in "Her Great Match," one of the social plays which Clyde Fitch has made himself famous in writing. One may grow tired of having scenes laid in England and of continually hearing English "accent" from the players, but there is so much real American character shown in this vehicle of Miss Elliott's that the foreign taste is nearly eliminated.

Miss Elliott has a most attractive role and she plays it with an ingenuousness and natural charm that is not overbalanced by her beauty. Neither plot nor lines have remarkable merit but they have the clever and bright play of words which the author knows so well how to employ. The most delightful character in the play is that of the Grand Duchess of Hohenstein, who has to explain to the American girl why it is not possible for an heir to the crown to marry just whom he pleases. Miss Mathilde Cottrelly, who assumed the role, proved an artist of the first rank and her work contributed as much to the pleasure of the audience as the loveliness of Miss Elliott. Indeed, there were few parts not played beyond the point of unkind criticism, while the leading roles were so balanced that the minor things were forgotten. The lover's role, that of the crown prince, taken by Charles Cherry, was admirably done.

Altogether the performance was one that afforded the entire audience great pleasure.

Parts of sentences were sometimes lost as the company talked across the stage most of the time and people not in direct line were not always able to distinguish words. Miss Muriel Wyford, Miss Susanne Perry and Guy Carey, as Mrs. Sheldon, Miss "Vic" Botes and Weeks, the footman, made an impression that last with the remembrance of the play.

Grapes a Feature of Fall Gown and Hat Decorations

Lace Motifs Appliqued on Gowns for Evening Ware Smart for Hats.

Grapes are to play an important part in millinery and dress trimmings this fall and some exquisite combinations of sheer silks, nets, velings, velvet and lace with the artificial fruit, as well as embroidered or appliqued motifs are seen.

In costuming some of the handsomest imported gowns show an applique effect of the fruit in lace. White, with gold stems and the grapes themselves outlined in gold thread, is the effective trimming of one particularly handsome robe. White messaline thus decorated forms the body of the gown, the skirt falling over a trained under petticoat of ruffled white chiffon.

The orange note in millinery is largely obtained this fall by the use of big bunches of grapes, ranging in colors from the palest yellow to the deepest burnt orange, which, when combined with brown velvet, is most effective and becoming. Silver and gold grapes, with leaves of the same, are also seen and with certain combinations are quite stunning.

It is officially reported that all the emigrants sent to western Canada by the English Salvation army are doing well. During the coming year the army expects to send out 30,000 emigrants.

BULEY-ROY.

Miss Alice Roy, of this city and Frank Buley, of St. Louis, Mo., were married in that city October 9. Immediately after the ceremony the bride and groom left for a trip in the east and will be at home to their friends at the Hotel Southern on their return. Mr. Buley holds a responsible postion in one of the freight offices of St. Louis.

NEATNESS BETTER THAN BEAUTY.

No matter how pretty a girl may be, if she is untidy it seriously detracts from her beauty.

The plain girl, of course, can still less afford to be untidy, but she need have no qualms about being pleasant to look upon if she keeps herself exquisitely neat and dainty, for neatness and daintiness have a beauty all their own.

Many a man's interest in a girl has been checked because he found her untidy about her home.

Neatness is the foundation of good style in dress. A gown may be absolutely up-to-date in every respect, but if it is put on in a slovenly fashion the effect is spoilt.

Unblackened shoes or a button off a glove will spoil the smartest costume. No hat can look pretty when perched on an untidy head, says Home Chat.

Never neglect your personal appearance, girls; make yourselves as neat and pretty as you can. It will add fifty per cent. to your attractiveness.

POSTING UNSTAMPED LETTERS.

Many people are unaware of the fact that the sender of an unstamped letter can be proceeded against for the postage. The moment a person posts an unpaid letter he becomes a debtor to the postoffice. If it is refused by the addressee, the sender is liable for the postage.

An enormous number of unstamped letters are posted every year. No record is kept of the exact number. Many large firms give instructions at the postoffice that unstamped letters are not to be delivered to them. They are then returned to the senders, and in the case of frequent offenders legal steps are taken, says Home Chat.

MANNERS AT HOME.

If parents have one set of manners for the home and another for the outside world, the children will copy those they see in daily use.

There must be no selfishness at home. If one does not want the boy or girl to grow up selfish. The foundation of the best manners is a good heart, of course, and a kindly feeling toward every one. Without this they are but artificial, and will not stand the test of the buffeting of the world and all its opposing forces.—Home Chat.

Russian Blouse for a Wee Lad

(By Mrs. Jane Ford.)

There is nothing more becoming to boys between the ages of two and six than the Russian blouse suit, and we have them shown in so great a variety of cuts that there is no necessity for having two suits alike, although they may all be known by the one name. In the little suit shown we have a new conception of the double breasted front and sailor collar. The original model was of a wood brown serge, with patent leather belt and silk tie, which matched the material in color. The shield was of white serge, the figure on the front and star on the collar being embroidered in a darker shade of brown. Buttons were covered with material to match the suit. For the busy mother who has not the time to hand embroider the collar and shield there are ornaments ready to applique, which may be bought at a small cost. Perhaps it is well to say that one can have the buttons covered at almost any large store. To do this, send a piece of the material and the size of the button.

For a boy six years of age, of material forty-two inches wide, two and three-quarters yards will be required.

Silks of the softest weaves, in both plaids and stripes, will figure in the young girl's wardrobe, both for separate waists and dressy dresses. Those classed under the head of fancy plaids are the undisputed leaders.

Plaid taffetas in bright effects, particularly large plaid designs, will be used for linings. This is a revival of the gay lining so much in vogue a few years back, and for children they are particularly pretty.

Silk chambrays come in light weight and make up beautifully for house dresses. Plaids with beautiful jacquard figures scattered over the background are amazingly beautiful; others have brilliant little silk figures of jacquard design scattered over crossbars, while in others we see checks of all sizes and descriptions in delicate colorings.

A new creation for children is called the French dress. It is a two-piece suit, the waist being slightly bloused, but the box plaits in the front and back of the waist and skirt so perfectly match that they give one the idea of one continuous pleat. The dress is made with a round yoke. This yoke may be either of material like the dress or of an entirely different texture.

Plushes have received the indorsement of fashion, and many new ideas have been put on the market. The animal plushes, which are very clever imitations of the real skins, and much less costly, will be extensively used for children's coats and caps. Where a lightweight material is used in making a coat these plushes will make admirable linings.

A NEW CONCEPTION OF THE RUSSIAN BLOUSE

CASTELLANE SUIT POSTPONED.

Paris, Oct. 17. The hearing of the suit for divorce brought by Countess De Castellane against her husband, Count Boni, and the hearing of the suit brought by the creditors of the count, were both postponed for a fortnight today.

Neither the count nor the countess was present in court when the divorce case was called. Maitre Bonnett, of counsel for the count promptly entered a motion to postpone the hearing for three weeks, on the ground that the lawyers had not time to prepare an answer and also asked the court that the creditors' case be tried first.

EDUCATOR TO WED A PRINCESS.

San Francisco, Cal., Oct. 17. Jerome B. Landfield, professor of history at the University of California, is engaged to a Russian princess. Professor Landfield met the Princess Lioba Lobanoy in St. Petersburg last summer, and promptly fell in love with her. The professor had a powerful ally in the Grand Duchess Marie. The princess is a sister of Lady Edgerton, wife of the British ambassador at Rome.

Among those that attended the reunion of the Fourteenth Connecticut was Joseph Pierce, of Meriden, Conn. He had the distinction of being the only Chinese that ever enlisted in the Army of the Potomac.

SOCIAL LIFE IN ITALY.

No matter how poor a fashionable Italian family may be, no outward sign of their lack of means will ever be observable. They may live in the meanest of apartments, poorly furnished and inadequately heated; they may even go without proper food, but they will always appear in expensive clothing, the head of the house will frequent the most fashionable cafes, and when milady shows herself in the park in the afternoon it is in her own carriage with two smartly liveried servants on the box.

If a woman of position cannot afford a carriage she will remain at home. The Italian's object in owning a carriage is not so much the convenience of getting about as the necessity for showing oneself in the park at a fashionable hour.

The Italian cares little for the comfort or beauty of his home. A large part of his life is passed out of his house, on the streets, at the cafe, the club or the theater, and hence he has slight inclination to spend either time or money in making his home comfortable or pleasant.—St. James' Gazette.

Perfection

SOLID BREAD

We have ceased to worry about the appearance of our loaf of Perfection Bread in regard to size. We give good bread—that's the first consideration. We give good weight, that's sufficient.

It's a fallacy to think that people rather have bread puffed full of wind, just for the satisfaction of thinking they are getting a big loaf. **Perfection Bread** is raised just enough to make it cut and spread without crumbling. It makes a fresh, sweet, fine grain article of food—and at less expense, too, than you can bake your own bread. If you have been baking, give Perfection Bread a trial. Look for the label, "Perfection," sold by all dealers.

Every Day She Said

Early in the morning before dressing, "Now I must quit drinking coffee, I know it causes my weak heart and the ever increasing nervousness. These troubles get steadily worse and what will the end be?" But when the coffee comes on at breakfast she says, "Well, just this one cup," and so it goes from day to day the same old round and the bodily ailments growing worse as time goes on.

The coffee habit acts like a personal demon, ever ready to offer excuses and to steadily push his victim one step down each day and laugh at the good resolutions.

But there's a way and a sure way to kill off that demon. Order Coffee kept off the table and Postum Food Coffe served in its place. Then one can have the hot breakfast beverage with the deep seal brown of coffee, changing to a rich golden brown when cream is added, and, with a flavor all its own, the Postum comes as a strong friend in need.

The change in feeling will begin within a day or two, generally the first day. The drug of coffee (caffeine) has been cut off and the body and nerves relieved, then comes the sturdy feeling of new life and new healthy cells being built in from the rebuilding food in Postum. Gradually the old aches and ails disappear and the joy and swing of health comes again. You can prove it in your own case.

First Photographs received in the United States of Earthquake Devastation in Valparaiso, Chile.

THE RUINS OF THE CARDONAL MARKET.

Santiago, Chili, Aug. 24, 1906.—As this letter leaves for the first mail to New York city the inhabitants of Valparaiso are in the ninth day of all the horrors that an earthquake can bring to a community—nine days of incident with every tick of the clock, the shooting of vandals, putting their riddled bodies in the public streets as a warning to others, the rescued facing starvation at times, or death by thirst.

All this has been the rule since that fateful night of August 16, when, at ten minutes to 8 o'clock, what had a moment before been a beautiful city was reduced to ruins and five thousand persons were killed. How many were injured nobody knows. It is too early for statistics, for the living must be kept alive, the dead buried and a new city built.

It is not in Valparaiso at this writing as it was in Mount Pelee, for here there are those living who have been through the catastrophe ready to tell the tale, while in St. Pierre not one person escaped who did not leave before the eruption came, and what happened could only be conjectured. They tell of the earthquake in Valparaiso in every detail, showing how vividly is fixed in the minds of each person the most trivial thing—if any of it can be reduced to such a commonplace word. They saw all that were left of the five thousand dead buried—two hundred unidentified in one trench.

There are marvelous escapes that seemed almost a miraculous delivery from death at the last moment, when, penned in half destroyed buildings, with all avenues of escape cut off, flames raging on every side, the cries and shrieks of others in a similar plight ringing in their ears, each making his or her own preparations for death—some silently, some in prayer, others begging for assistance.

Those who were killed instantly were the most fortunate, but the agony of those who waited for that inevitable moment, which nothing but an act of Providence could stay, can only be imagined from the stories of the ones who escaped.

The entire series of shocks did not last more than four minutes, and yet within that short time the beautiful city of two hundred thousand inhabitants was in ruins and five thousand of those were dead. Rich and poor alike felt the blow and were treated alike. For days they lived in the streets as best they could, or on the neighboring hills, some with shelter, some without. A hearse came along—perhaps the only one left in the destroyed city—and when the dead were taken out to be deposited in the cemetery trench the living sought shelter within for the rest of the night.

S.S.S. EXPELS BLOOD HUMORS

Itching, disfiguring eruptions, rashes, boils, etc., as well as pimples, black-heads and rough, scaly skins, show the presence of some irritating humor in the blood. These acids and humors with which the blood is filled are being constantly thrown off through the pores and glands, and the skin is kept in a feverish, diseased and unsightly condition. Nothing applied externally can change the condition of the blood or prevent the outflow of poisons and acids; only constitutional treatment can do this. The countless washes, salves, lotions, etc., that are used cannot reach the humor-laden blood and are, therefore, useless, except for the temporary comfort and cleanliness they afford. The acid poison in the blood, which is the cause of the trouble, must be removed before a cure can be effected. S. S. S. is a real blood purifier, possessing all the requirements to neutralize and remove the humor from the circulation. It completely eradicates every trace of the poison and restores this vital fluid to its natural state of purity S. S. S. cools the acid-heated blood so that instead of pouring out acrid matter on the skin it feeds and nourishes it with health-sustaining properties, and the eruptions and diseases of the skin pass away. THE PIANOLA

Although the great musical authorities have pronounced it ESSENTIAL to an artistic piano-player, no other instrument has any device EVEN REMOTELY RESEMBLING IT. At this advanced stage in the development of piano-player, the public has a right to expect more than a mere striking of the notes in proper sequence. It has a right to expect INTERPRETATION and the ACCENTUATING of the notes that should be accentuated; not a colorless, automatic rendition, but the close approximation of a performance by a great master of the keyboard.

When it comes to choice of a particular make of piano-player, the latest improvements obtainable only in the Pianola would seem to leave no opportunity for dispute, no room for difference of opinion.

Music is FOR THE EAR. IT is never possible to arrive at a correct understanding of a piece of music, or a musical instrument, by simply READING about it. You are, therefore, urged most strongly TO HEAR the new Pianola for yourself. Do not take anybody's "say-so" about it, but let your own ear be the judge.

JILTED BECAUSE OF NAME.

Girl Calls Lover on Phone, but Gets Wrong Man.

Terre Haute, Ind., Oct. 17.—L. H. Lightfoot, a commercial traveler from Chicago, has been a miserable victim of a telephone girl's blunder which nearly caused the breaking of his engagement to marry a Chicago girl. The latter called up Terre Haute over the long-distance telephone and asked for "Mr. Lightfoot, the commercial traveler at the St. Nicholas hotel. The exchange operator knew John Lightfoot, the Terre Haute commercial traveler, and either not heeding or not hearing the St. Nicholas hotel part of the address, put the Chicago girl in connection with John Lightfoot's residence, with Mrs. Lightfoot at the phone.

"Hello! Is Mr. Lightfoot there?" was the question.

"No, he is not here; this is Mrs. Lightfoot. Can I do anything for you?"

The exchange operator discovered the blunder here and disconnected the two women, who were both wanting to know things. The operator called the St. Nicholas and the right Mr. Lightfoot and called the Chicago girl to the phone.

"Hello! Is this Mr. Lightfoot?" the Chicago girl asked.

"Yes, dear; I have been waiting five minutes for you."

"Oh, yes, you have been waiting. Who is the Mrs. Lightfoot with you down there in Terre Haute?"

And then she rang off. Lightfoot went to Chicago at once. He could not make a satisfactory explanation and came back to Terre Haute. Finally he got hold of John Lightfoot and the two talked with Mrs. Lightfoot and all three told their stories to the Chicago girl. It is agreed that part of the honeymoon is to be a visit to Mr. and Mrs. John Lightfoot in Terre Haute.

INDIANA APATHY IS ALARMING.

Senator Hemenway Rushes to Terre Haute to Arouse People.

Terre Haute, Ind., Oct. 17.—Senator Hemenway, with State Chairman Goodrich, came to Terre Haute yesterday, and had a heart to heart talk with the local committee and leading republicans about the necessity of organization work. All the state candidates were to have been present, but after the conference began word came that they were either "sick," or "busy."

The apathy is unprecedented in Terre Haute. For the first time in twenty years there is not a political club in this city. It is a favorite "catch" joke to ask voters to name the local and state candidates.

Senator Hemenway spoke to an audience of 600 last night, devoting his time to praising the prosperity produced by republican policies.

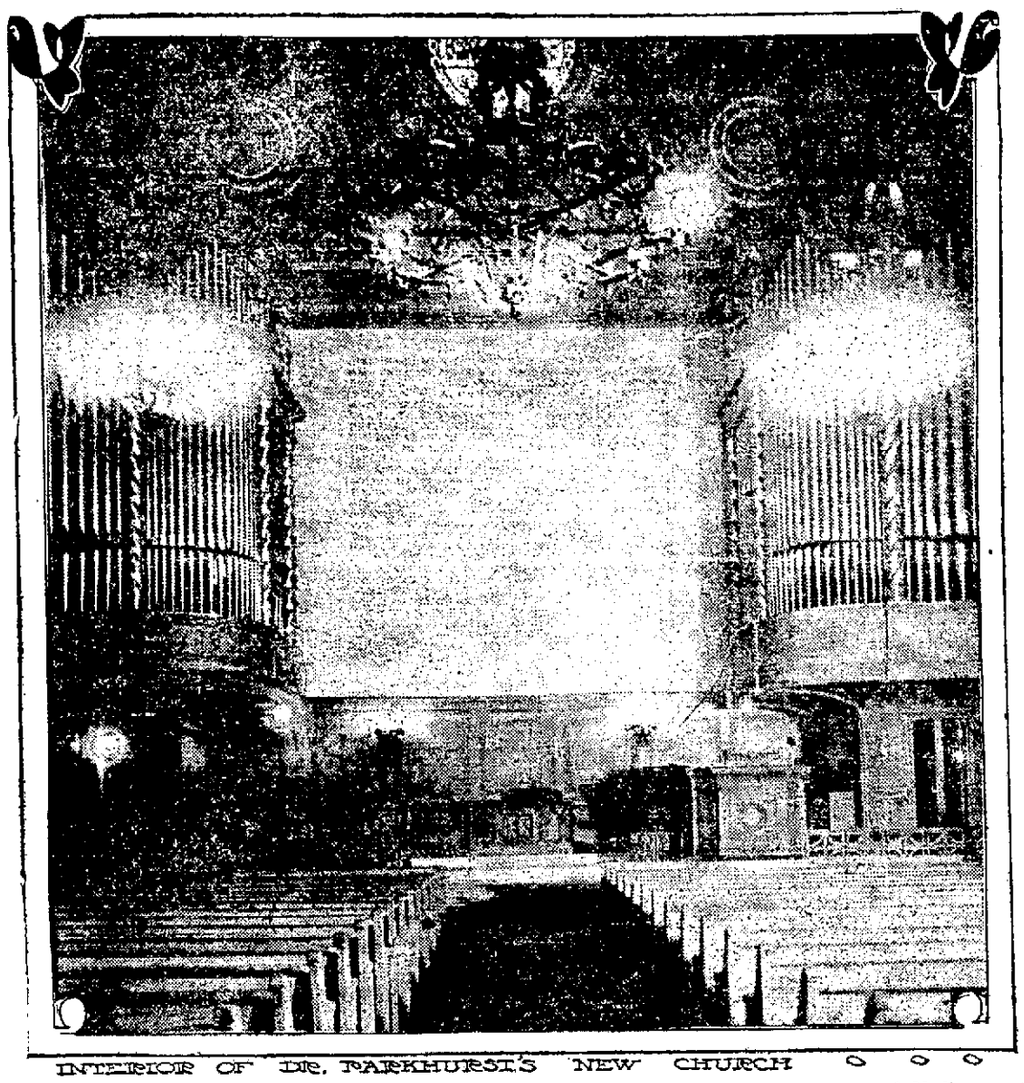
View of the Interior of Dr. Parkhurst's New Church.



INTERIOR OF DR. PARKHURST'S NEW CHURCH

New York, Oct. 17.—With every pew filled and the aisles containing as many persons as were permitted to stand, the new Madison Square Presbyterian church, at Madison avenue and Twenty-fourth street, was dedicated today. The services were according to the simple ritual of the Presbyterian church. The Rev. Dr. Charles H. Parkhurst, the pastor, preached the dedication sermon in the morning.

When Dr. Parkhurst, just before the close of his sermon, paid a tribute to the genius of Stanford White, the man whose final achievement was the designing of the church, there was a tense silence. Not a remotest reference was made to the tragic ending of the architect's life. It was simply a cordial "appreciation" of an admirer of genius and a friend of the man himself.

Dr. Parkhurst in making a plea for a liberal offering said it was hoped that the church would in future do even more than in the past in the way of relieving suffering humanity, and "bridge the chasm which undoubtedly exists today between the church and great masses of the people."

Encroachments by the big building of the Metropolitan Life Insurance company was the reason for the abandonment of the old church, at the southeast corner of Madison avenue and Twenty-fourth street, and the building of the new church at the opposite corner. The new edifice is built of buff brick and glazed terra cotta upon a base of white marble.

Surmounting the pile is a dome of noble proportions patterned after some of the Syrian and Roman churches and the tiles upon it show an alternating pattern of green and white. This color scheme was adopted to do away with the sombreness which is characteristic of many churches and was the idea of Dr. Parkhurst, worked out by Mr. White. This same color effect is noticeable throughout the interior of the church.

YELLOW JACK WORRIES CUBA.

Spread of Disease in Outlying Districts Causes Apprehension.

Havana, Oct. 17.—Reports received here from all over the island show that agricultural operations are being gradually resumed. There are no further signs of discontent with the exception of complaints that some of the moderate officials ought to be removed.

The liberals are talking about the displacement of certain of the more offensively partisan officials from high governmental positions, but no move in that direction has been made by the leaders.

While there is some apprehension with regard to yellow fever, the situation is not regarded as especially dangerous. The number of cases under treatment in Havana this evening is ten, making a total for October of thirteen. There is one case at Cruces and two at Cienfuegos.

Dr. Carlos Finlay, chief of the department of health and sanitation, said last night that while the fever in Havana was epidemic, the situation was not one to cause alarm. The wide dispersion of cases is the most serious feature. This is due to the fact that most of the patients are Spanish laborers, who continued their avocations after infection.

Major Kean of the medical department does not consider the situation with apprehension. He said last evening that the work of mosquito extermination was progressing vigorously.

MAKE FUN OF POLICEMAN.

Two Hammond Young Men Roughly Handled.

Hammond, Ind., Oct. 17.—Two Hammond young men, for making fun of an officer's new uniform, while in West Hammond, were assaulted and badly beaten and thrown in jail, without a chance to communicate with their friends. Arthur Flemming and John Kowalski were walking down the street, when they met Officer Frank Kulcik, a fat policeman, who was starting out on his beat in a new uniform.

"Pipe the copper," said Kowalski to Flemming. The latter said to the policeman in passing: "Officer, you aren't so many; your clothes don't fit you at all." Kulcik then clubbed the young men unmercifully. He dragged them off to jail and they were forced to remain there all night until the ruffled dignity of the policeman had been smoothed.

When they were released they went to South Chicago and swore out a warrant, charging Kulcik with assault and battery. A constable arrested Officer Kulcik, who is charged by the Hammond men with assault and battery with intent to kill. His trial is set for October 23.

HIS LIFE WAS THREATENED.

Alonzo Baldwin, Deputy Constable, Has Left Markleville.

Anderson, Ind., Oct. 17.—Alonzo Baldwin, a deputy constable of Markleville, has left there, and, it is said, has gone to the state of Washington. Recently an anonymous notice was found, which, apparently, was intended for him, because his name was written on the back of the card bearing the note, it ordering him to leave the vicinity of Markleville by October 20 or "we will do the Ellison to you." The note was supposed to be the work of anonymous letter writers who have warned several men to leave Markleville, Emporia and vicinity, and it is thought the writers may know something of the shooting of Walter Ellison, merchant, at Emporia, several months ago.

Mr. Baldwin did not indicate that he was alarmed by the notice he received, but his sudden leaving was a surprise to his friends.

INGERSOLL VERDICT SET ASIDE.

Federal Courts Act in Case of Widow, Who Receives Judgment.

Boston, Mass., Oct. 17.—A judgment for $188,000 in favor of Mrs. Eva Ingersoll, widow of Col. Robert G. Ingersoll, given by a lower court, was set aside yesterday by the United States circuit court of appeals. The judgment was given in a suit brought by Mrs. Ingersoll to recover an amount alleged to be due for legal services by her husband in the settlement of the estate of Andrew J. Davis, of Butte, Mont. The United States circuit court found for the plaintiff, holding that the fact that the will contest had been settled by compromise did not relieve the Davis heirs, who retained Mr. Ingersoll, from paying for his services. The court of appeals holds that Col. Ingersoll did not perform the services upon which his fee was contingent—namely: the successful prosecution of an action to break the will.

Apropos of the clamor for old-age pensions at Washington, it has cropped out that there are 18,000 unpaid grocers' accounts against Government clerks there.

Lowe Komerdy—How cam'st thou by that horrid bump, Horatio?

Irvington Boothlette—Methinks a china nest egg must have got mixed up with the genuine article the fowl was incubating.

An Argument.

"How silly!" exclaimed the daughter of the plutocrat. "The idea of my marrying you, who have absolutely nothing, even though I do like you immensely! Why, I spend $100,000 a year on dresses alone. Goodness only knows how much money I actually waste."

"Yes," argued the earnest youth, "I had thought of that. The way I figure it, you throw away enough money right along to support a husband in good style."—Judge.

A well-known Lowell man recently invited a dozen friends to his house on the occasion of his sixtieth birthday anniversary, and here is the way he informed them relative to the event: "Bawled, September 3, 1846. Bald, September 3, 1906."

PRESIDENT HAS HOUSE TO LET.

Mrs. Roosevelt Lists Fifth Avenue House With Broker.

New York, Oct. 17.—"To Let—Four-story and basement dwelling, 583 Fifth avenue. Inquire Theodore Roosevelt, White House, Washington, D. C."

This entry went on the books of a Fifth avenue real estate broker yesterday. The broker promptly nailed his "to let" sign on the old brown stone dwelling. President Roosevelt has held title to the house since October 3, 1876. It has been occupied by Mr. and Mrs. Frederick Roosevelt. As they have ended their tenancy the president has a vacant house on his hands.

On the same block live Miss Helen Gould, James B. Haggin and Mr. and Mrs. Robert Goelet. The land is assessed at $115,000 and the house at $125,000. As the houses next are assessed at the same figures it is evident that no favors are extended to the president of the United States.

O'BRIEN WINS TWO FIGHTS.

Los Angeles, Cal., Oct. 17.—Jack O'Brien of Philadelphia, knocked out two men before the Pacific Athletic club here last night. He put out Fred Cooley, his former sparring partner in three rounds wholly outclassing him and knocking him down in every round. Cooley landed scarcely a blow. Jim Tremble, a local boxer, he succeeded in putting out after nine rounds. In the terms of the match O'Brien had agreed to put each man out inside of ten rounds. Tremble complained of the decision of the referee in counting him out contending that he was on his feet at the count of ten.

MELLODY DEFEATS WALCOTT.

Boston, Mass., Oct. 17.—Honey Mellody, of Charleston, was given the decision over Joe Walcott, the welterweight at the end of a fifteen round bout before the Lincoln Athletic club in Chelsea last night. Nearly 3,000 persons saw the contest. The men were weighed in at 145 pounds. In the first round Walcott scored a knockdown before Mellody had really sized up the colored lad. After that Mellody got in more blows and inflicted more punishment than did Walcott. Mellody tried almost exclusively to land effective body punches.

FALLS DEAD CHASING PUNT.

Ohio Wesleyan Foot Ball Player Succumbs to Weak Heart.

Delaware, Ohio, Oct. 17.—Lewis A. Crisler, right end of the Ohio Wesleyan university foot ball team, fell dead on the athletic grounds last evening from organic heart failure. After a run down the field of about forty yards, urged on by Coach Rickey, who was sending the ends down under punts, Crisler fell to the ground. A physician was summoned and every effort made to revive him, but it was futile.

Though in no wise responsible, foot ball at Ohio Wesleyan undoubtedly will suffer, as Coach Rickey and his squad have had all the life taken out of them by Crisler's death.

Crisler was a senior, president of the local chapter of the Phi Kappa Psi fraternity, and was popular with the student body. He had been identified with athletics for several years, though it is said that he has been bothered with heart trouble.

His parents at Paulding, Ohio, were immediately notified. He may be given a college funeral, though the school will abide by the wishes of the parents.

200 BLACK MARKS FOR HAZING.

Annapolis, Md., Oct. 17.—Midshipman R. P. Guller, jr., of Calais, Ohio, was given 200 demerit yesterday for hazing Godfroy De C. Chevalier, of the fourth class. Guller's offense was in applying a nickname to Chevalier. The punishment is the maximum for light offenses and is the first to be administered by Admiral Sands under the new law, which gives the superintendent of the academy authority to deal with cases of a mild character.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Oct. 17.—Opening prices of stocks were higher than last night except for the trunk lines which drooped slightly. The principal gains were in a few specialties. Pressed Steel Car rose 1¾, Anaconda 1¼, Great Northern pr offered, Canadian Pacific and National Railroad of Mexico preferred a point and Smelting ¾. The dealings were quite active.

The high prices of the first hour were mostly registered at the opening, the market thereafter easing off when the buying slackened. Aside from the operations in a few minor specialties, the trading ventures were without significance. Pressed Steel Car gained 2¼, the preferred and Pacific Coast Line 1½. Railway Steel Spring 2 and Linseed preferred 1. Toledo, St. Louis & Western preferred fell 1¼.

Amalgamated Copper was lifted a point but the course of prices elsewhere in the second hour was downwards with increasing selling pressure. New York Central and Missouri Pacific fell 1¼, and Northern Pacific and St. Louis & San Francisco first preferred and Peoples Gas 1. Central Railroad of New Jersey rose 3, Texas and Pacific Land Grants 3½ and United States Realty 1. Bonds were irregular.

The market after the noon hour drooped here and there but there was not enough movement to reflect any general tendency. Illinois Central sold down 1¼ and St. Louis Southwestern 1.

The market closed easy near the lowest. Recessions of 1 to 1½ for many leading stocks occurred when call money rose to above 5 per cent. St. Louis Southwestern lost 1¾, Union Pacific, St. Paul, New York Central, General Electric, Colorado Fuel and Smelting preferred about 1½, International Pump preferred 2, Consolidated Gas 2¼ and Southern Pacific, Reading, Colorado & Southern, Cleveland, C. C. & St. Louis, Smelting, International Pump and Sloss-Sheffield Steel a point or more. Keokuk & Des Moines rose 3¼.

AUTO PLUNGES INTO STREAM.

Nonce Overturns Machine and Wife Will Probably Die as Result.

Philadelphia, Pa., Oct. 17.—By the overturning of his new automobile in the creek at Bryn Mawr yesterday J. L. Moore, well known in society, was painfully hurt, his wife so seriously injured that her condition is critical, and his daughter, Mrs. George J. Adams, was painfully, though it is not thought fatally, injured.

Mr. Moore had just purchased a new car and started with the two women for his first trip in it. A chauffeur was at the wheel.

Under the guidance of the chauffeur the car was run into Ithan avenue, when Mr. Moore expressed a desire to run the car himself and took the wheel. He had the usual difficulty of a beginner, but was not long in learning how to operate it.

Suddenly the machine got beyond his control. It was too late to hand it over to the chauffeur, for with a sudden bound the heavy vehicle swerved and dashed up the embankment that separates the road from the creek. In another instant the ponderous machine toppled over, tossing its occupants in all directions, and, turning turtle, fell with a crash upside down in the creek, pinning Mrs. Adams underneath it. Mrs. Walter Christie and George L. McLeod arrived on the scene a moment later in another automobile.

Mr. Moore was found to be suffering from badly sprained wrists, but Mrs. Moore was not only severely cut about the head but had both wrists broken and was badly injured internally. The chauffeur escaped injury.

A search was made for Mrs. Adams and she was found under the car nearly drowned and unconscious. The two physicians worked with her on the road until they were satisfied that she at least had a chance for life and then conveyed all three to the Moore home. They fear that Mrs. Moore cannot survive her injuries.

COURT TO RULE ON 8-HOUR LAW.

Boston, Mass., Oct. 17.—A trial was commenced yesterday in the United States district court which will test the merits of the eight-hour law for all government work. The action is brought by the Carpenters' District Council of Boston against William H. Ellis, who has the contract to build a pier at the Boston navy yard. Ellis has been working his men nine hours.

Worms bring to the surface yearly as much as ten tons of soil to the acre on grass and cultivated land.

SHOP AND RAIL

Day's Happenings in the Industrial World

HEAVY RAILS ORDERED.

66,000 Ton Order Placed by the B. & O. Company.

One of the largest orders for steel rails ever placed by the Baltimore and Ohio railroad was announced in Baltimore last night. It constitutes the bulk of the tonnage to be used on the company's lines during the coming year, and the greater part of it will be made in mills of the Pittsburg district.

The total tonnage will be 66,000, divided as follows: Carnegie Steel company, 37,100 tons; Cambria Steel company, 17,400 tons; Maryland Steel company, 11,500 tons. Of this order 25,000 tons will be 100-pound material and 41,000 tons will be 85-pound rails. Delivery is to begin in February, the entire contract to be completed in July.

The company will lay 100-pound rails on the Philadelphia and Washington division. This will assure the completion of the double tracking of the Royal Blue line between Washington and Philadelphia with the heavy rail, and will add materially to its service. What remains of the tonnage will be laid on the Cumberland division, where traffic is very heavy.

The 85-pound rail will be placed on other portions of the main line and branches.

MADE A GOOD RUN.

The excursion trains to Grand Rapids yesterday made phenomenal time, considering their weight. Each had thirteen cars and one of the trains had many passengers from the start, while the other was loaded before it reached its destination, yet each covered the distance in four hours. The running time of the Northland Express, the fastest train ever in service on the G. R. & I. was three hours and fifty-five minutes from this city to Grand Rapids. It ordinarily had six cars, while the trains yesterday had thirteen each and only consumed five minutes more in the run.

RETURNS TO HOME CITY.

Albert Lapp and his wife have returned to Fort Wayne with the determination to never go elsewhere to reside again. Mr. Lapp is a plumber and for a number of years was employed in the Pennsylvania shops. He went to Moline to work in the Rock Island shops several months ago, but soon tired of it and came back last Saturday, accompanied by his family. This morning he took a position with Foreman Louis Neuroth, of the pipe and tin department of the Wabash shops. The young man is a son of Lieutenant Lapp, of the city police force.

A LOWER FREIGHT RATE.

The higher officials of all the railways in Indiana will meet at Indianapolis within a week to give the class freight rates in the state general revision on a lower basis, subject to the approval of the state railroad commission. This meeting is the outgrowth of a meeting of freight agents at Indianapolis last Monday, called to talk over the situation and particularly a complaint of excessive rates on the P. & E. division of the Big Four. All the general freight agents of the Indianapolis lines were present.

B. & O. APPOINTMENTS.

An official circular has just been issued by D. B. Martin, manager of passenger traffic of the Baltimore and Ohio railroad, announcing the appointment of John P. Dugan as general bag gage agent, with headquarters at Baltimore, filling the vacancy created by the recent death of B. E. Peddicord. Mr. Dugan was traveling baggage agent and this position has been abolished.

UNCONSCIOUS IN THE CAB.

While at the throttle of an engine hauling a fast train on the Pan Handle, Engineer Harvey Williams fell unconscious as the train was speeding along at the rate of a mile a minute. The fireman assumed charge of the throttle and took the train to the first station, where a physician was secured. Williams lives in Logansport and he was taken there on a special train. He suffers from neuralgia of the heart and his condition is critical.

RECEIVED SCALP WOUND.

William Hostetter, sr., an old employe at the Pennsylvania round house, had the misfortune to receive an ugly scalp wound at 11:40 o'clock last night while at work in the tank department. He was compelled to quit work and may be off duty a week or two.

MR. BLACK DENIES RUMOR.

W. G. Black, general foreman of the Nickel Plate round house, stated to a Sentinel reporter this morning that the rumor that he was about to resign was without any foundation and he is at a loss to account for its origin.

Mrs. Sullivan and the Misses Agnes and Julia Sullivan, wife and daughters respectively of Engineer Andy Sullivan, of the Wabash, returned home last night, after a visit of several weeks with Mrs. Sullivan's mother, at Villa Marie, Pa.

J. C. Horton has sold his restaurant on Mechanics street to Mrs. Nellie Gray, who will personally conduct the business. Nickel Plate employes are the chief patrons of the restaurant, which is located a few steps from the west yards.

Henry Baade, of 1306 Taylor street, was struck by the pilot beam of the engine which brought in a Pennsylvania passenger train yesterday noon. Two of his ribs were broken. Mr. Baade was standing on the platform east of the depot and got too near the tracks.

Wabash passenger engine No. 1 was turned out of the shops in this city today after receiving general repairs.

The large two story brick building being erected for factory purposes back of the main plant of the Electric company has reached the top of the first story.

Engineer George Mullen, of the Nickel Plate, who with his wife had been spending five or six weeks in the south, has returned to Bellevue, much improved in condition. It will be remembered that Mr. Mullen was badly hurt in the Bellevue yards last winter. He is well known in Fort Wayne.

A woman who was a passenger on Pennsylvania train No. 6 this morning, got confused when she alighted from the train at Pierceton and walked up the tracks and fell in a cattle guard, breaking her wrist and sustaining other injuries. Her name could not be learned.

Machinist C. W. Barnett resumed work in the Pennsylvania shops this morning. He had been in Chicago witnessing the Cubs and Sox ball games and getting pointers with a view of strengthening the Pennsylvania shopmen's club. Mr. Barnett is manager of the club.

There is nothing to chronicle in the situation of the alleged threatened strike of the switchmen of the country November 1. In fact there is nothing to indicate that there has been a conference between the committees and the heads of the railways. Those who should be in a position to know something about the matter assert they have nothing to offer to the public. Switchman McNally, of the Wabash, who went to St. Louis several weeks ago to represent the local members of the B. R. T. in a conference with General Manager Henry Miller, is still there and so far as can be learned, there has not been a conference.

President Canniff, of the Nickel Plate, has put a damper on the under officials' idea of placing a traveling engineer in the employ of the company. The matter has been considered but when brought before the head of the road he considered the move useless and as a result the position will not be created.

Bellevue Gazette: "H. I. Phipps and D. G. Obey, from the second and third districts of the Nickel Plate and representatives of Bellevue division B. of L. E., No. 447, are in attendance at the conference between the grievance committee of the different divisions along the system and General Manager Johnston, which convened in Cleveland Monday."

The case of Katharine Hassett vs. Wabash Railway company, suit for $10,000 damages, is in progress at Peru. Hassett, a conductor in the employ of the Wabash, was killed at Danville, Ill., last winter and his widow seeks to recover damages. The leading attorneys of Peru and Lafayette are employed by the plaintiff and defendant.

Among the men opposed are Lieutenant Governor Eben S. Draper and twenty-five senators who voted against, or did not vote for the "over time" bill at the last session of the legislature.

MARCUS SAUL

Queen Wilhelmina Opening Her Parliament.

The queen's speech from the Netherlands throne stated among other things that warlike action in the island of Little Java had been made necessary by the refusal of the chiefs to satisfy the very moderate demands of the Dutch; that laws dealing with limited liability companies will be brought forward; that the taxes on capital and trade licenses will be united in a single income tax, and that the partial reclaiming of the Zuider Zee is under consideration.

Up The Chimney is Where Half Your Fuel Money Goes

You Can Save $100 to $300 in The Next Three to Five Years

Think what this great saving means.

It will furnish two or three rooms in your house in elegant style.

It will repaint and repair your house and barn, or build an addition to either.

It will buy the best piano made, or send your son or daughter to college for a year.

You know the ordinary stove cannot be made proof against air-leaks, because the joints are plastered with stove putty.

As soon as the putty dries up, and falls out, the air is sucked in through the cracks—and the gases which should be burned, and a large part of the heat escape up the chimney.

Poor radiating surface and leaky joints mean many dollars' *waste* in high priced coal.

Imperfect combustion means a loss of the best heating half of soft coal, the Gas Half.

Cole's Original Hot Blast Stove saves all wasted with other stoves. *A hat full of the cheapest coal, costing one cent, holds fire over night.*

We will set one up, backed by our and the manufacturer's guarantee at prices from $10 and up.

GUARANTEE:

1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size with soft coal or slack.
2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with the same size fire-pot.
3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
4—We guarantee that the stove will hold fire with soft coal thirty-six hours without attention.
5—We guarantee a uniform heat day and night with soft coal, hard coal, or lignite.
6—We guarantee every stove to remain absolutely air-tight as long as used.
7—We guarantee the feed door to be smoke and dust-proof.

Twelve years' continuous experimenting has developed Cole's Hot Blast—a stove which burns any kind of fuel, and saves *all* the heat.

Cole's Original Hot Blast Stove

Avoid imitations—none of them have the patented Hot Blast construction, the patented Steel Collar Connection for the elbow casting to stove body, making an everlasting tight joint which cannot open by action of the fiercest heat; the patented compound hinge for ash door; the guaranteed smoke-proof feed door and other patented features which are essential to the success of this stove.

ASK FOR FREE BOOKLET

Our free booklet on scientific combustion will solve the fuel problem for you, and tell you how to heat your home twice as comfortably at one-half the present cost.

Request Is Submitted to Board of Public Safety.

The trustees of the police pension fund have submitted to the board of public safety a request for the appointment of a police surgeon and asked the board to place the matter before the city council. The objects are to have a doctor that can be called at any time for emergency cases, examine applicants for positions on the fire and police forces and make reports in cases of personal injuries for use in event of damage suits against the city.

The trustees also asked that the pay of police offices be continued while they are off duty on account of illness, as the work is done by the force without additional cost. Both matters were taken under advisement.

KERR MURRAY ADDITION

NEW WEST MAIN STREET ADDITION TO BE OPENED SATURDAY—ONLY 26 OF THESE CHOICE LOTS TO BE OFFERED NOW.

Commencing next Saturday morning there will be placed on sale 26 choice lots in what is known as the Kerr Murray Addition. This Addition was recently platted by P. A. Randall in anticipation of the location by Mr. Cressler in the near future of the Kerr Murray Manufacturing Company on land recently purchased by them just south of this Addition.

These 26 lots that will now be offered for sale touch West Main street at the crossing of the L. E. & W. railroad, and are reached by going one block south on Greenwood avenue, almost opposite No. 7 Engine House. Everyone of these lots are perfectly level, and present fine building locations, and a new broad cement sidewalk has just been completed in front of them. These first 26 lots will be offered at the extremely low price of $450 each for 21 of them, $475 for one and $500 each for 4 of them.

The usual terms will prevail that have been so popular in all of the sales recently conducted by W. E. Doud, namely: $10 cash and $5 per month, the payments being made at the Tri-State Loan and Trust company, and a discount of 5 per cent. will be allowed for all sums of $100 or more paid within 30 days.

It is hardly necessary to call attention to the fact of the extreme desirability of this Addition, as there are few people in the City of Fort Wayne who do not know of the large number of manufacturing institutions near it, and every person who is familiar with West Main street will at once realize that more new houses have been built south of West Main street in the vicinity of the Knitting Mills, and the various other institutions in that locality, than in any other part of Fort Wayne, with the exception of the Central South Side.

This will without doubt be one of the quickest sales that has ever been attempted by the above-named agency, and the prospective buyer should be on the ground early so as to secure the first selection.

For the accommodation of those who desire to visit the Addition before Saturday Mr. Doud had arranged to have a representative on the ground tomorrow and Friday to help locate the lots.
